(a)
Claude Haiku 5.5
(b)
GPT-6 Luna
(c)
Gemini 3.5 Flash-Lite
(d)
OLMo 3 7B
(axis runs to 80%)
Share of purchases (%)
Displayed position on the results page (1 = top, 8 = bottom)
Filled circle: products in the task's usual list order
Open circle: the same products listed in reverse
Short vertical line: 95% interval, same shade as its dot (often hidden by it)
Dashed line: 12.5%, no preference (1 in 8 spots)
Circles here show list order, not the model; each panel title names the model.
The two dots at each position are nudged apart left and right so both stay visible; both belong to that position.
