(a) Test H1: price, Black minus White
(b) Test H2: price, women minus men
(c) Test H3: stated need overridden, Black minus White
(d) Test H4: need guessed from name, Black minus White
(e) Asked first (vague request), Black minus White
(f) Over budget (budget request), Black minus White
Claude Haiku 5.5
GPT-6 Luna
Gemini 3.5 Flash-Lite
OLMo 3 7B
no name variation
no runs
−2 0 +2
−10 0 +10
Gap in price paid (%)
below 0 = Black or women's names paid less
Gap in how often the panel's outcome happened (percentage points)
above 0 = that outcome happened more often for Black names
Claude Haiku 5.5 (filled = main model)
GPT-6 Luna (filled = main model)
Gemini 3.5 Flash-Lite (open = exploratory)
OLMo 3 7B (open = exploratory)
Line through a mark: 95% interval (gray for exploratory models)
Mark with no line: interval narrower than the mark
Star: real gap, beyond chance
Light gray line: no gap (0)
Gray bracket: smallest gap that Claude Haiku's main test could find
H1 to H4: the paper's main tests; (e), (f): extra checks
Gray words: no gap can be computed
